

Imagine...  
Having your own  
private waterfront.

#### Why us?

Our Lake and Pond Management-Construction division was started because of the owners' passion for water, fishing and excavation. We noticed that there are only a few lake and pond management companies around and they don't perform the actual construction. So we put together a fleet of equipment, avid fishermen, a team of landscape visionaries, licensed applicators and an aquatic biologist so that we can both construct and manage your water feature.

## DESIGN – *We can bring lakefront living to you!*

If you own a pond or lake or are thinking about building one, then you've come to the right place. We offer a diverse array of services that can create, improve & maintain your favorite body of water. Call or email Senior Biologist Joe Cadieux [joe.cadieux@wi.rr.com](mailto:joe.cadieux@wi.rr.com) for a consultation to discuss your project.

***Don't think you can have a waterfront home?***  
For a fraction of the cost we can bring the water to you!

With You Every Season
